

Add Videos to Your Moodle Page Using the Embed Code

1. Go to YouTube and locate the video and at the bottom click on the Share Icon
2. In the Share dialog box, Click on embed
3. In the Embed Video window click on the Copy button to copy the embed code to your computers clipboard.

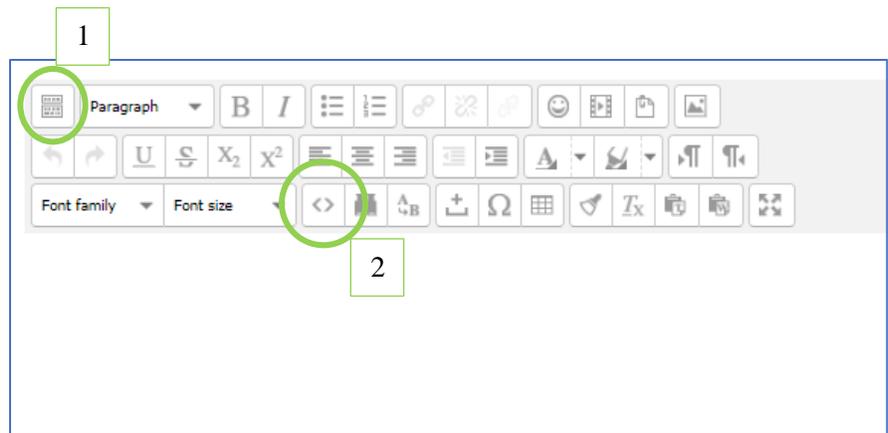

Go to page two to continue -

Go to Moodle -

4. In your Moodle course, turn editing on

5. Click on **Add an activity or resource** and select **Label** and click **Add**

6. Click on the **toolbar toggle button** (1) to see all the toolbars

7. Click on the **edit HTML source button** (2)

8. Paste the embed code in the **HTML source editor**

9. Click **Update**

10. You should see the preview of your video in the editor

11. Click **Save changes**
